

# Robinson Crusoe

ADVENTURES ON THE CURSED ISLAND

*A hurricane raged at sea last night. In the morning, as you woke, the beach was filled with broken planks and rigging. It seems that a ship had crashed against the reef in the north of the island—maybe you can search and find something useful.*

## Wreckage tile

During Setup, place the Wreckage tile on the board, in the space shown below:

During the Action Phase, you may resolve a Special Explore action to search the Wreckage (you may need to use an extra  when calculating the distance to the destination from Camp as normal). If the action is successful, discard the Wreckage tile, draw 2 Starting Equipment cards, and place 1  on each of them.
